

Siegfried Karg, Bibliography on Hearing Loss and Hearing Loops

Second, updated version (March 11, 2019)

In my book (only available in German) «Wer Ohren hat, der würde gerne hören. Schwerhörigenseelsorge und Induktive Höranlagen können helfen». Vorwort Prof. Dr. med. Thomas Linder, Saarbrücken: Fromm Verlag 2014, ISBN **978-3-8416-0559-7**, I have also collected a lot of literature (books and articles) in English (99). The rest of the bibliography (204 titles altogether) is in German.

I want to make this English bibliography available to my English-speaking friends who may find it helpful. Feel free to pass this bibliography on to your friends / students who want to write papers or articles on the subject of hearing loss and hearing loops.

All the references quoted are out of books / articles I either own personally or personally checked in Swiss libraries. They should be correct – but as you know “nobody is perfect”.

Sealy, Texas, November 4, 2017

Siegfried Karg
siegfried.karg@bluewin.ch

P.S. I am sure there are additional titles which I have missed, or which were published after December 2014. It would be nice if you email me these titles. Thank you.

Titles in “green” are not yet included in my book from 2014.

Titles in “purple” are additions in the second, updated version (March 11, 2019)
